Pearson Education is not responsible for the content of any external intranet sites. It is essential for tutors to preview each website before using it in class as to ensure that the URL is still accurate, relevant and appropriate. We suggest that tutors bookmark useful websites and consider enabling students to access them through the school/college intranet.

## Endorsement Statement

In order to ensure that this resource offers high-quality support for the associated Pearson qualification, it has been through a review process by the awarding body. This process confirms that this resource fully covers the teaching and learning content of the specification or part of a specification at which it is aimed. It also confirms that it demonstrates an appropriate balance between the development of subject skills, knowledge and understanding, in addition to preparation for assessment.

Endorsement does not cover any guidance on assessment activities or processes (e.g. practice questions or advice on how to answer assessment questions), included in the resource nor does it prescribe any particular approach to the teaching or delivery of a related course.

While the publishers have made every attempt to ensure that advice on the qualification and its assessment is accurate, the official specification and associated assessment guidance materials are the only authoritative source of information and should always be referred to for definitive guidance.

Pearson examiners have not contributed to any sections in this resource relevant to examination papers for which they have responsibility.

Examiners will not use endorsed resources as a source of material for any assessment set by Pearson. Endorsement of a resource does not mean that the resource is required to achieve this Pearson qualification, nor does it mean that it is the only suitable material available to support the qualification, and any resource lists produced by the awarding body shall include this and other appropriate resources.

# Introduction

Welcome to the Student Textbook for the Pearson LCCI Level 4 Certificate in Management Accounting (ASE20102). This textbook has been designed to support you in your LCCI studies and offers coverage of the LCCI specification content.

This textbook is divided into chapters, listed in the order of the specification content. Each chapter deals with an important section of content, with links to the specification listed on the first page.

Each chapter contains the following features:

- **Learning objectives** – these summarise the knowledge, understanding and skills that you are expected to gain from this chapter.
- **Tips** – these suggest ways of studying and applying the content to help improve your understanding of the course.
- **Activities** – these give you practice on specific aspects of the theory and build your understanding.
- **Real world case studies** – these show you ‘real-life’ examples of what you are studying and put learning into context.
- **Chapter summary** – this section summarises the key points, in terms of knowledge, understanding and skills that you should have learnt from each chapter. If there are any points which you have not learned, it is recommended that you go back to that relevant section of the chapter to consolidate your understanding.
- **Questions** – these apply to key areas of content in the specification, and help you understand individual concepts covered in the chapter. (The answers are contained in the back of the book, but we recommend you attempt the questions first before looking at the answer.)

We encourage you to check the Pearson website (**qualifications.pearson.com**) and search for this qualification to download a range of free learner resources. These include past papers, mark schemes and model answers.

To view the current glossary for the LCCI Financial and Quantitative qualifications, please visit **qualifications.pearson.com/lcci** and select the ‘Specification and Sample Assessment Materials’ page for the relevant qualification.

We wish you the very best as you study this LCCI qualification.
